Multi Directional 6 position Tilt Switch

SW-6 is a low cost device that provides users easy solution for applications where reliable detection of thresholds is required. The unit provides 6 Normally Open contacts. Rugged construction make it suitable for numerous crane, emergency, dangerous grade notification, visual display, warning, alarm, automotive, medical, and construction applications. Low profile and standard pin spacing facilitate simple PCB utilization. Detectors are factory tested to confirm angle detection levels. The product provides reliable NON-CARCINOGENIC replacement to Mercury switches..
